

Community Partnerships

Our philosophy is straightforward: to be good stewards for our shareholders, while doing the same thing for the environment and the communities where we live and work. It's that simple. This commitment starts with the community.

Our civic engagement programs are designed to have long-term sustainable positive impacts on organizations tied to our industry and our communities. We pride ourselves on supporting and improving the quality of life in the communities where our employees live and work. Our corporate giving program has donated nearly \$10 million to nonprofit and civic organizations in the areas where we operate. In addition, Range employees are highly engaged community volunteers.

Programs

YOUTH AGRICULTURE

Range and its service company partners have contributed funds and in kind donations that have surpassed \$1 million in support of students and youth agricultural programs in Washington County, Pennsylvania.

COUNTY PARKS

Range has leased and developed natural gas under publicly-owned parks in Allegheny and Washington County, generating ~\$50 million to date. This has provided critical funds for public park enhancements, including new playgrounds, boat launches, walking trails and other facility upgrades.

UNITED WAY

Range has been a recipient of the United Way's Chairman's Award, a recognition of the most successful campaigns in Washington County, every year since 2009. Since 2007, the company and its employees have raised over \$1 million for community programs and services through United Way campaigns.

HUNGER-RELATED CAUSES

Employee volunteers support the 2000 Turkeys Campaign food drive to help food-insecure families. With help from the community, Range has contributed ~\$1 million for the cause over the past several years. Range also supports the Greater Washington County Food Bank, The Washington City Mission and helped launch a food assistance program at Fort Cherry School District.

EDUCATION

Range partners with organizations like Junior Achievement and The Challenge Program to help inspire and prepare the next generation of leaders. These programs allow our employee volunteers to provide classroom support for students.

Range hosts regular career days to provide students a day-in-the-life experience across multiple employee disciplines.

CONSERVATION

Range partners with organizations like the National Wild Turkey Federation, Keystone Elk Alliance and Pheasants Forever on wildlife habitat improvement projects near natural gas development.
